Executive Summary

Enterprise Program and PMO leader with over 30 years of experience delivering complex initiatives across IT infrastructure, enterprise systems, supply chain operations, and organizational transformation. Recognized for establishing enterprise PMO governance frameworks, improving portfolio visibility for executive leadership, and strengthening delivery discipline across complex multi-team environments. Experienced in translating strategic objectives into structured programs and modernizing delivery systems using tools such as Azure DevOps and Power BI.

Core Leadership Capabilities

- Enterprise PMO Development
- Portfolio Governance & Intake Frameworks
- Executive Reporting & Portfolio Visibility
- Program & Transformation Leadership
- Delivery Systems Modernization (Azure DevOps Governance)
- Infrastructure & Technology Modernization
- Cross-Organizational Delivery Coordination
- Organizational Change Leadership
- Executive Stakeholder Engagement

Selected Enterprise Initiatives

Enterprise PMO Development & Governance Framework

Designed and implemented an enterprise PMO governance structure to improve portfolio oversight and delivery discipline across multiple initiatives. Introduced project intake, stage-gate governance, and executive portfolio reporting.

Azure DevOps Governance & Delivery Visibility

Implemented governance standards for Azure DevOps including standardized sprint cadence, improved capacity planning, and Power BI dashboards providing executive delivery visibility.

Infrastructure Modernization & Transformation Programs

Led coordination and governance across infrastructure modernization initiatives spanning multiple teams and operational environments, improving delivery coordination and milestone visibility.

Career Experience

Leadership roles delivering enterprise initiatives across IT infrastructure modernization, supply chain transformation, enterprise systems implementation, and operational improvement programs. Focused on strengthening governance structures, improving delivery execution, and providing executive leadership with clear visibility into program performance and risk.
